**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Barlow (3,872,904).

Barlow ('904) discloses the screw member and screwdriver as presently claimed.

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Burt et al., Hannay, Lee, Reinhardt, and Simons each disclose a screw member and a screwdriver having a substantially Y-shaped insertion recess and a substantially Y-shaped tip, respectively.
